PENDANG, KEDAH

### SUMMARY

---

Detail-oriented and versatile IT professionals with hands-on experience in software development and technical support engineering. Skilled in integrating third-party software, developing user-friendly features, and creating comprehensive system documentation. Experienced in preventive maintenance, switch replacement projects, and network troubleshooting to ensure reliable connectivity and minimize downtime. Adept at preparing technical reports (RCA, PM, SOP) and supporting large-scale IT infrastructure projects. Strong problem-solving, documentation, and cross-team collaboration skills, with proven ability to enhance system functionality and improve user experience.
